

Spinnaker Chair – Boat Sail Chairs

It's rare that the world's of eco and modern luxury mix but in this case **Spinnaker** chairs fill the gap. They use recycled boat sails stretched across a spring steel frame with high quality leather and fabric cushions. One of the most popular and noticeable features of the Spinnaker chair is the curved shape that is built for comfort while also giving it a modern look that fits any where. Along with chairs you can also find a table, footstool, and TV table in the Spinnaker collection. Spinnaker is a Norwegian brand so the chairs are harder to get in the United States without special order from their website.

Price: \$2,950 USD
