The SPINNAKER Chair

Posted on December 28, 2010

Share

...just a chair right? - Wrong. Being comfortable no matter what the occasion is probably one of the most
...and most overlooked things. Design firm **Spinnaker** aims to make sure that whatever the setting is, if
...the mood to relax, their chair is the perfect design to keep you feeling at ease. Constructed so that your
...feet are in natural positions, its spring steel frame is fabricated with a slight curve at the front of the seat. This
...allows for optimal blood circulation your legs. The cushion that sits on the frame is divided into three sections, each
...with different degrees of firmness in order to give your body all the necessary support. You might think a chair is
...simple but it definitely goes a long way giving you peace of mind.
